

## How to access your email using FireFox

Go to Algonac's web site - [www.acsk12.us](http://www.acsk12.us) and scroll down to the bottom of the page. On the left hand side you will see Outlook. Left click on outlook.

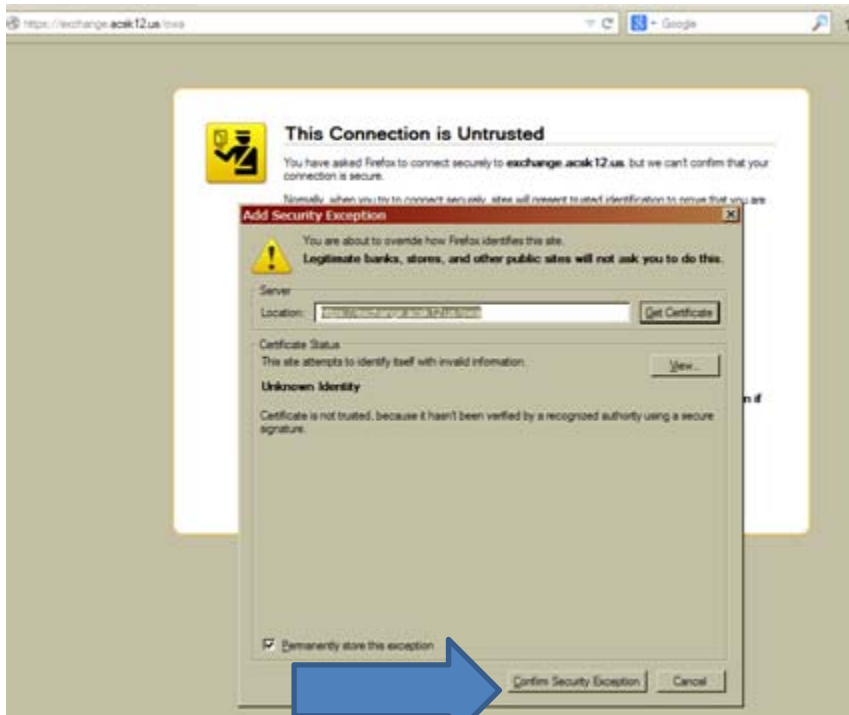

You will come to this page. Left click on “I understand the risks”

Left click on "Add Exception"

Left click on "Confirm Security Exception"

You will now be at the log in page for Outlook. Sign in using your assigned username and password.

Microsoft Office Outlook Web Access

Security ( [show explanation](#) )

This is a public or shared computer

This is a private computer

Use Outlook Web Access Light.

The Light client provides fewer features and is sometimes faster. Use the Light client if you are on a slow connection or using a computer with unusually strict browser security settings. If you are using a browser other than Internet Explorer 6 or later, you can only use the Light client.
